

BARBED WIRE

Eclipse offers economical and durable fencing for rural, industrial and security applications.

Eclipse barbed wire is manufactured using zinc/aluminium alloy coated wire for long-lasting protection and provides a reliable alternative to electric fencing.

Available in High Tensile Reverse Twist and Standard IOWA configurations, Eclipse barbed wire provides an effective solution for boundary fencing, livestock control and security applications. A choice of barb spacings and wire specifications allows the product to suit different fencing requirements, from general rural use through to more demanding applications.

High Tensile Reverse Twist		
DIAMETER (mm)	BARB SPACING (mm)	LENGTH (m)
1.60	100	500
1.60	150	500

Standard IOWA		
DIAMETER (mm)	BARB SPACING (mm)	LENGTH (m)
2.50	75	225
2.50	150	255

Manufactured and tested to New Zealand Fencing Standard NZS3471:1974 and Coating Standard AS/NZS 4534/W05Z5A. Carries the WIREMARK Guarantee. New Zealand made.

Eclipse fencing is manufactured by United Wire Products and meets the WIREMARK® Quality Standard.
