

HI VIZ SAFETY NETTING

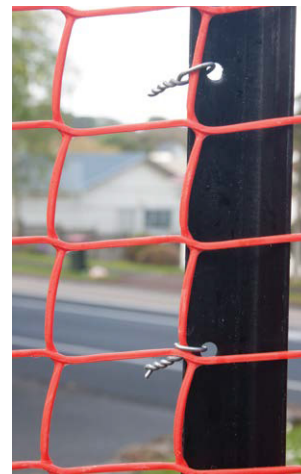

SINCE 1903

Cyclone offers high-visibility safety netting for secure and clearly defined work areas.

Cyclone Hi Viz Safety Netting provides a simple and effective way to restrict unauthorised access to hazardous or controlled areas. Lightweight and easy to handle, it is designed for quick installation, relocation and reuse across changing worksites.

Manufactured from durable orange UV stabilised HDPE, the highly visible netting helps clearly identify site boundaries and potential hazards. Ideal for construction sites, roadworks, drainage and earthworks, it provides contractors and businesses with a practical, compliant temporary safety fencing solution.

Roll specifications: 50mm x 50mm x 1m x 30m

Cyclone fencing is manufactured by United Wire Products and meets the WIREMARK® Quality Standard.
